

Technical Specifications	
Model	HZS90
Category	HZS concrete batching plant
Theoretical Productivity	90 m ³ /h
Mixer Model	JS1500
Mixer Type	twin-shaft
Discharge Height	3.8 m
Aggregate Bins	4 bins × 12 m ³ each
Total Power	~150 kW
Control System	PLC + Touch Screen (Manual/Semi/Full Auto)
Accuracy (aggregate)	±2%
Accuracy (cement)	±1%
Accuracy (water)	±1%

KEY FEATURES

- Delivers 90 m³/h concrete for mid-size construction and commercial ready-mix production
- Equipped with JS1500 twin-shaft mixer (45 kW) and pneumatic discharge gates
- Modular design for simplified transport and on-site assembly
- Belt conveyor system with 1000 mm belt width
- ISO 9001 and CE certified

Certification	ISO 9001, CE
Warranty	Contact our sales team for details
